## WORK EXPERIENCE

### Software Engineer Trainee

COGNIZANT

10/2022 - Present

Cognizant is the organization where I completed my training and gained experience as a software engineer trainee.

*Achievements/Tasks*

- I have intermediate level proficiency in SQL as one of the key skills I acquired during your traineeship.
- I have worked with database management systems such as MySQL, Oracle, and Microsoft SQL Server.
- During this I learn the ability to use SQL to perform tasks like data retrieval, filtering and sorting.

### • Internship

Cognizant

01/2022 - 05/2022

Cognizant

*Achievements/Tasks*

- HTML, CSS, JavaScript, SQL, and Python are the programming languages and technologies I learned during my internship.
- I learn to create responsive and user-friendly web pages using HTML markup, CSS styling, and JavaScript for interactivity and client-side functionality.
- Along with that I gain experience on SQL queries for data retrieval, manipulation, and database management tasks.

## PERSONAL PROJECTS

### Online lawyer Management

- It is a web-based application designed specifically for managing various aspects of a law firm or legal practice.
- We use HTML, CSS, JavaScript for manipulating the front end of the web page.
- In this project we provide features like client management, case tracking, document management, appointment scheduling, billing and invoicing, and reporting.
- We also make use of mssql to store and manage the system's data
